SUMMARY

Full-Stack Developer skilled in MERN stack, TypeScript, and C++. Experienced in building full-stack web applications with REST APIs, authentication, and responsive user interfaces. Strong understanding of Data Structures and focused on writing clean, scalable, and maintainable code.

SKILLS

Languages: JavaScript, TypeScript, C++, Python

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

Concepts: Data Structures, OOP, REST APIs, JWT Authentication

EXPERIENCE

MERN Stack Development — Grazitti Interactive

Jan 2025 – May 2025

MongoDB, Express.js, React, Node.js

- Developed a full-stack Movie Review platform during structured industry training, implementing user authentication, REST APIs, and CRUD operations using the MERN stack.
- Gained hands-on experience with component-based architecture in React.js and server-side routing with Express.js and Node.js in a professional setting.
- Practiced API testing with Postman, version control with Git, and followed industry coding standards throughout the training duration.

PROJECTS

ExpenseWise AI | [Live](#) | [GitHub](#)

Tech Stack: MERN, TypeScript, Tailwind CSS, JWT, Google OAuth, Recharts

- Developed a full-stack AI-powered expense tracker with JWT + Google OAuth authentication, category-based CRUD, and a real-time spending dashboard.
- Integrated Recharts to visualize monthly spending trends, weekly comparisons, and category breakdowns through interactive line and pie charts.
- Built an AI insights module that surfaces personalized budget advice, top spending category, and transaction summaries from user data.

Review Flicks | [Live](#) | [GitHub](#)

Tech Stack: MERN, TypeScript, Tailwind CSS, JWT, Google OAuth, TMDB API

- Developed a full-stack movie review platform with JWT + Google OAuth authentication, allowing users to browse, search, filter by genre, and submit reviews and ratings.
- Integrated TMDB API to fetch real-time movie data and built REST APIs with Express.js and Node.js for review management and user operations.
- Implemented persistent data storage with MongoDB for managing users, reviews, and ratings across the full application.

EDUCATION

B.Tech in Electronics & Communication Engineering

2021 – 2025

Chandigarh Group of Colleges, Landran

Class XII

2020 – 2021

Spring Dale Public School, Khanna

Class X

2018 – 2019

Walia English Model School, Khanna

CERTIFICATIONS

- Fundamentals of Artificial Intelligence — NPTEL, IIT Guwahati (Jul – Oct 2022)
- Python Certification — Saylor Academy
- Postman API Fundamentals — Postman Academy
